https://www.w3schools.com/sql/sql_quiz.asp - 15 minutes

https://www.w3schools.com/hTml/html_quiz.asp - 15 minutes

http://www.w3schools.com/css/css_quiz.asp - 15 minutes

https://www.w3schools.com/js/js_quiz.asp - 15 minutes

Part 2: (User Management) 2 hour exam. Use XAMPP or Wamp **Please do not browse the internet while taking this exam**

1. Create a folder under XAMPP or WAMP and name it after your firstname.
2. Create Login Page
3. Create Registration Form
4. Create two roles Admin and Staff
5. Admin can Edit User
6. Staff can only view list of users but cannot edit profiles.
7. Add session.

Login Page

Login Panel
Username:
Password:

An Admin can ADD, EDIT, DELETE a user. A list of all users is also a MUST.

Register user

ID	Username	First Name	Last Name	User type		
1	Kira Yamato	Kira	Yamato	staff	edit	delete
2	Natsu Dragneel	Natsu	Dragneel	admin	edit	delete
3	Atrun Zala	Atrun	Zala	staff	edit	delete

A Staff can only see the list of all users.

ID	Username	First Name	Last name	Usertype
1	Kira Yamato	Kira	Yamato	staff
3	Atrun Zala	Atrun	Zala	staff

This is what registration form looks like, no need to encrypt the password field when adding to database and no need for confirm password field.
